## MEMORANDUM

**TO:** Garber-Wellington Technical Committee  
**FROM:** John M. Harrington, Division Director, Water Resources  
**DATE:** June 2, 2006  
**RE:** Progress Report

---

Staff is currently doing field work in the El Reno well field, testing out the earth imaging machine and evaluating the lease. Preliminary results from the new machine are quite encouraging.

Staff participated with the Oklahoma Department of Environmental Quality on the first public meeting concerning pathogen TMDLs on the North Canadian River in El Reno. Final TMDL determination will be late summer.

Staff is participating in preparing a Stream Restoration Conference with INCOG, OSU, and the Office of the Secretary of Environment. Tentative date is in November, with the conference site at the Reed Conference Center in Midwest City. Crutcho Creek will be a focus during the conference.
