Transportation Planning Services		City of Edmond

### **INFORMATION:**

In October 2022, the City of Edmond Council approved the EdmondShift Long-Range Mobility Plan. The EdmondShift Plan modernizes and brings together planning and prioritization for riding transit, walking, biking, ride sharing, and all other modes of transportation. The primary function of EdmondShift is to reconcile, update, and modernize existing plans and consolidate previous recommendations into one comprehensive document for the city to use for all future mobility investment decisions.

The planning process began in August 2021 with data collection, existing plan review, and public feedback on existing conditions and priorities. An Advisory Committee was tasked with guiding the process, creating the vision and goals, and ensuring the plan reflected the vision goals throughout. The Advisory Committee met 8 times over the course of 13 months.

Ken Bryan, Long-Range Planner with the City of Edmond, will provide the committee with an overview of the plan and then discuss the planning process.

The final plan document can be found at [engagekh.com/edmondshift/homepage](https://engagekh.com/edmondshift/homepage).
