**PREPARATION OF CY 2024 NETWORK MONITORING REPORT**

### DATE:

FEBRUARY 27, 2025

### FROM:

**LAUREN WOOD**

Transportation Planner II - Performance  
Transportation Planning Services

### INFORMATION:

ACOG staff will soon be preparing the CY 2024 Network Monitoring Report, as called for by the Unified Planning Work Program. The purpose of this report is to maintain current information on the implementation of multimodal transportation improvements in the ACOG MPO area in conformance with the goals of the metropolitan transportation plan, as well as to update the regional transportation model. The report will identify all projects completed in 2024 resulting in increased transportation choices, improved traffic flow, and/or increased street/highway network capacities in the region. This information will also be used for analyses to determine the relationship between network improvements and crash rates.

**Your assistance is requested in identifying all transportation projects within your jurisdiction that were complete/implemented during calendar year 2024**, regardless of the source of funding or party responsible for construction. A representative of each entity (refer to the attached page) was emailed a survey (Excel file) and asked to provide information about roadway, transit, and bicycle/pedestrian improvements completed within their jurisdiction during the past year. Entities that have submitted data as of Monday, February 3, are highlighted in yellow.

**Please submit your surveys to ACOG by Monday, March 3, 2025.** As noted in the survey, in the event there were no applicable projects completed in your entity during 2024, a response to that effect would be appreciated as well. Please email the completed surveys to TPS Grants at [tpsgrants@acogok.org](mailto:tpsgrants@acogok.org).

A survey or a response stating no applicable projects were completed is required to apply for all transportation grant programs.

The survey can be downloaded here: [Network Monitoring Survey CY 2024 \(Excel file\)](#).

Transportation Planner II - Performance  
Transportation Planning Services

### **INFORMATION:**

Performance-based planning and programming has become a national emphasis per recent federal transportation legislation—namely, the 2012 Moving Ahead for Progress in the 21st Century (MAP-21) Act, 2015 Fixing America's Surface Transportation (FAST) Act, and 2021 Infrastructure Investment and Jobs Act (IIJA). Federal planning requirements direct metropolitan planning organizations (MPOs) to coordinate with their respective state department of transportation and area public transportation providers in developing 14 performance measures and targets to track and maximize the benefits of transportation planning decisions and infrastructure investments.

Recently the Oklahoma Department of Transportation (ODOT) submitted the five required safety targets to FHWA. Now, ACOG as an MPO, needs to identify and submit the regional safety targets for those same five performance measures. Federal guidance states that the MPOs may either support the targets of the state, or may submit their own targets based on the regional data. In either instance, ACOG will need to report on the measures and the targets, and eventually explain how the region is making progress towards reaching those targets. This occurs through both the short-range plan (TIP) and Metropolitan Transportation Plan (MTP). In particular, projects should be selected using criteria which help support the goals, measures, and targets established by the region in the MTP.

The staff presentation will outline possible options for the regional safety targets and the attachment on the next page summarizes these options and recommendations.

Please contact Lauren Wood with any comments, questions, or suggestions at [lwood@acogok.org](mailto:lwood@acogok.org) or (405) 234-2264.

**The ACOG MPO Technical Committee recommended approval at their February 13, 2025, meeting.**

### INFORMATION:

On October 7, 2024, the Oklahoma Transportation Commission (OTC) approved a new 8-Year Construction Work Plan (FFY 2025–FFY 2032). The plan contains critically needed transportation improvement projects for the state’s on-system facilities (interstates, US and state highways, and bridges). The work plan continues to focus on reducing the number of structurally deficient bridges in the state, while also focusing on improving pavement conditions statewide and reducing the number of two-lane highways with deficient shoulders. The full work plan can be found here:

<https://oklahoma.gov/content/dam/ok/en/odot/programs-and-projects/projects/8-year-construction-work-plan/2025-2032%20CWP%20Book.pdf>.

At the February meeting, Emily Pehrson and Kendall Wallace, ODOT Project Managers, will provide an overview of the 8-Year Construction Work Plan and discuss the projects listed that impact the ACOG MPO area.
