

UPGRADE YOUR FLEET.

Stretch Your Budget.

Your City Can Cut Costs and Modernize Its Fleet

The ACOG Public Fleet Conversion Grants Program helps cities and towns **replace gas and diesel vehicles with clean fuel options** — including electric, hybrid, CNG, propane, and hydrogen — and build fueling infrastructure.

ACOG reimburses up to 80% of the cost for eligible refueling infrastructure projects. **You supply the 20% local match.** **For fleet vehicles, ACOG covers the incremental price difference between a gas/diesel vehicle vs an alternative fuel vehicle.**

Think electric police cruisers, CNG refuse trucks, hybrid utility vehicles, and EV charging hubs at your yard and in your community.

ACOG
reimburses
up to
80%*

Why This Makes Sense for Cities & Towns

- **Lower Total Cost of Ownership:** Save on fuel, oil changes, and maintenance
- **Big Reimbursement:** 80% of eligible project costs are reimbursed
- **Predictable, Clean Tech:** Vehicles and equipment are proven, off-the-shelf, and road-ready
- **Smarter Long-Term Investments:** Invest in durable, efficient vehicle technology to reduce future budget strain and ensure fleet reliability

“With help from ACOG over the years, the City of Norman is now saving \$500,000 a year in fuel cost compared to gasoline and diesel — Darrel Pyle, City Manager

WHAT YOU CAN FUND

- Light, medium, and heavy-duty alternative fuel vehicles
- Hybrid and plug-in hybrid replacements
- EV chargers or CNG/propane infrastructure
- Off-road equipment (e.g., mowers)

YOU'RE ELIGIBLE IF YOU ARE:

- Cities, towns, counties, or utilities within the ACOG MPO boundary
- Private contractor providing services like trash collection for eligible entities (via a Public-Private Partnership)
- Public school district

IMPORTANT TO KNOW

- This is a reimbursement program – projects must be pre-approved
- Only new replacement vehicles are eligible
- Projects must meet emissions and cost-effectiveness criteria
