# CONSENT DOCKET

## **SUBJECT:**

**2026 ACOG COMPLETE STREETS POLICY UPDATE**

## **DATE:**

MAY 28, 2026

## **FROM:**

**JOEL DIXON, PE, MRCP, MPA**

Special Projects Coordinator  
Transportation Planning Services

## **INFORMATION:**

In January 2026, ACOG staff began reviewing the Complete Streets Policy to update it. The current ACOG Complete Streets Policy was adopted in 2021.

The significant revisions were made in accordance with the following purpose: 1) to bring ACOG's policy into alignment with the 2023 Complete Streets Policy Framework by Smart Growth America and the National Complete Streets Coalition, and 2) to update ACOG's policy with current state-of-the-practice knowledge and understanding. Minor edits to update references and Internet links and to improve grammar, syntax, punctuation, and clarity were also included in this update, however, this memorandum highlights only the significant changes made to the ACOG Complete Streets Policy.

The 2026 update includes the following:

- Elaborating on the Complete Streets vision for Central Oklahoma by specifying the applicable modes - including biking, walking, transit, and driving - and emphasizing the creation of complete, connected networks for all modes.
- Expands on the policy's goals to include land-use considerations that increase accessibility and seek to address congestion.
- Clarifying the policy's applicability to all ACOG-sponsored projects within the ACOG MPO Transportation Management Area (TMA).
- Updating to design language that demonstrates a commitment to Complete Streets principles, incorporates surrounding land-use context, and reflects the latest state-of-the-practice.
- Specifying exceptions to the policy as explicitly outlined by Smart Growth America and the National Complete Streets Coalition in accordance with FHWA guidance on accommodating bicycle and pedestrian travel.
- Clearly defining the distinction between a street and a road.
- Clarifying the policy's applicability requirements to include multimodal accommodations during construction and repair activities and consideration of right-of-way width and its impact on crossing distance.
- Updating design language that prioritizes the safety of all street users first and foremost and emphasizes the Safe Speed Study methodology for street design as well as the importance of network principles and design user profiles to create safe, comfortable, and connected facilities for all street users.

- Updating and expanding the design guidelines referenced within the policy.
- Adding performance measures relevant to the updated Complete Streets vision and goals.

These updates were provided to the Technical Committee for review and comment. Please provide any written comments regarding the [2026 ACOG Complete Streets Policy Update](#) to Joel Dixon at [jdixon@acogok.org](mailto:jdixon@acogok.org) by **Thursday, June 11, 2026**. The final 2026 ACOG Complete Streets Policy will be brought to committees for approval in August.

**SUBJECT:**

**CRITICAL URGAN FREIGHT CORRIDORS UPDATE**

**DATE:**

MAY 28, 2026

**FROM:**

**JENNIFER SEBESTA**

Transportation Planning Services (TPS) Division Manager

**INFORMATION:**

The Oklahoma Department of Transportation (ODOT) is currently developing the 2027-2034 Oklahoma Statewide Freight Plan. As part of that process, ODOT has requested that MPOs review their existing Critical Urban Freight Corridors (CUFC) and make any necessary updates.

The ACOG MPO CUFC will be incorporated into Oklahoma's portion of the National Highway Freight Network (NHFN). The NHFN was established to direct federal funds and policies toward improved performance of the highway portions of the U.S. freight transportation system. To be eligible for NHFN related funds, state DOTs must designate CUFC. MPOs, in consultation with the state DOT, are responsible for designating any public roads that make up the CUFC. Per federal requirements, corridors should:

- Connect to the interstate system or intermodal freight facility
- Provide an alternate route to the interstate and/or
- Serve a freight facility in the region

The ACOG MPO CUFCs were first identified in 2017 and updated in 2022. The existing network is available in the attached ([Figure 1](#)) map. (Also see [Table 1](#) for the 2017 list, 2022 additions, and 2022 removed segments). ACOG MPO Technical Committee members are asked to review the CUFC in their communities and provide feedback to ACOG regarding:

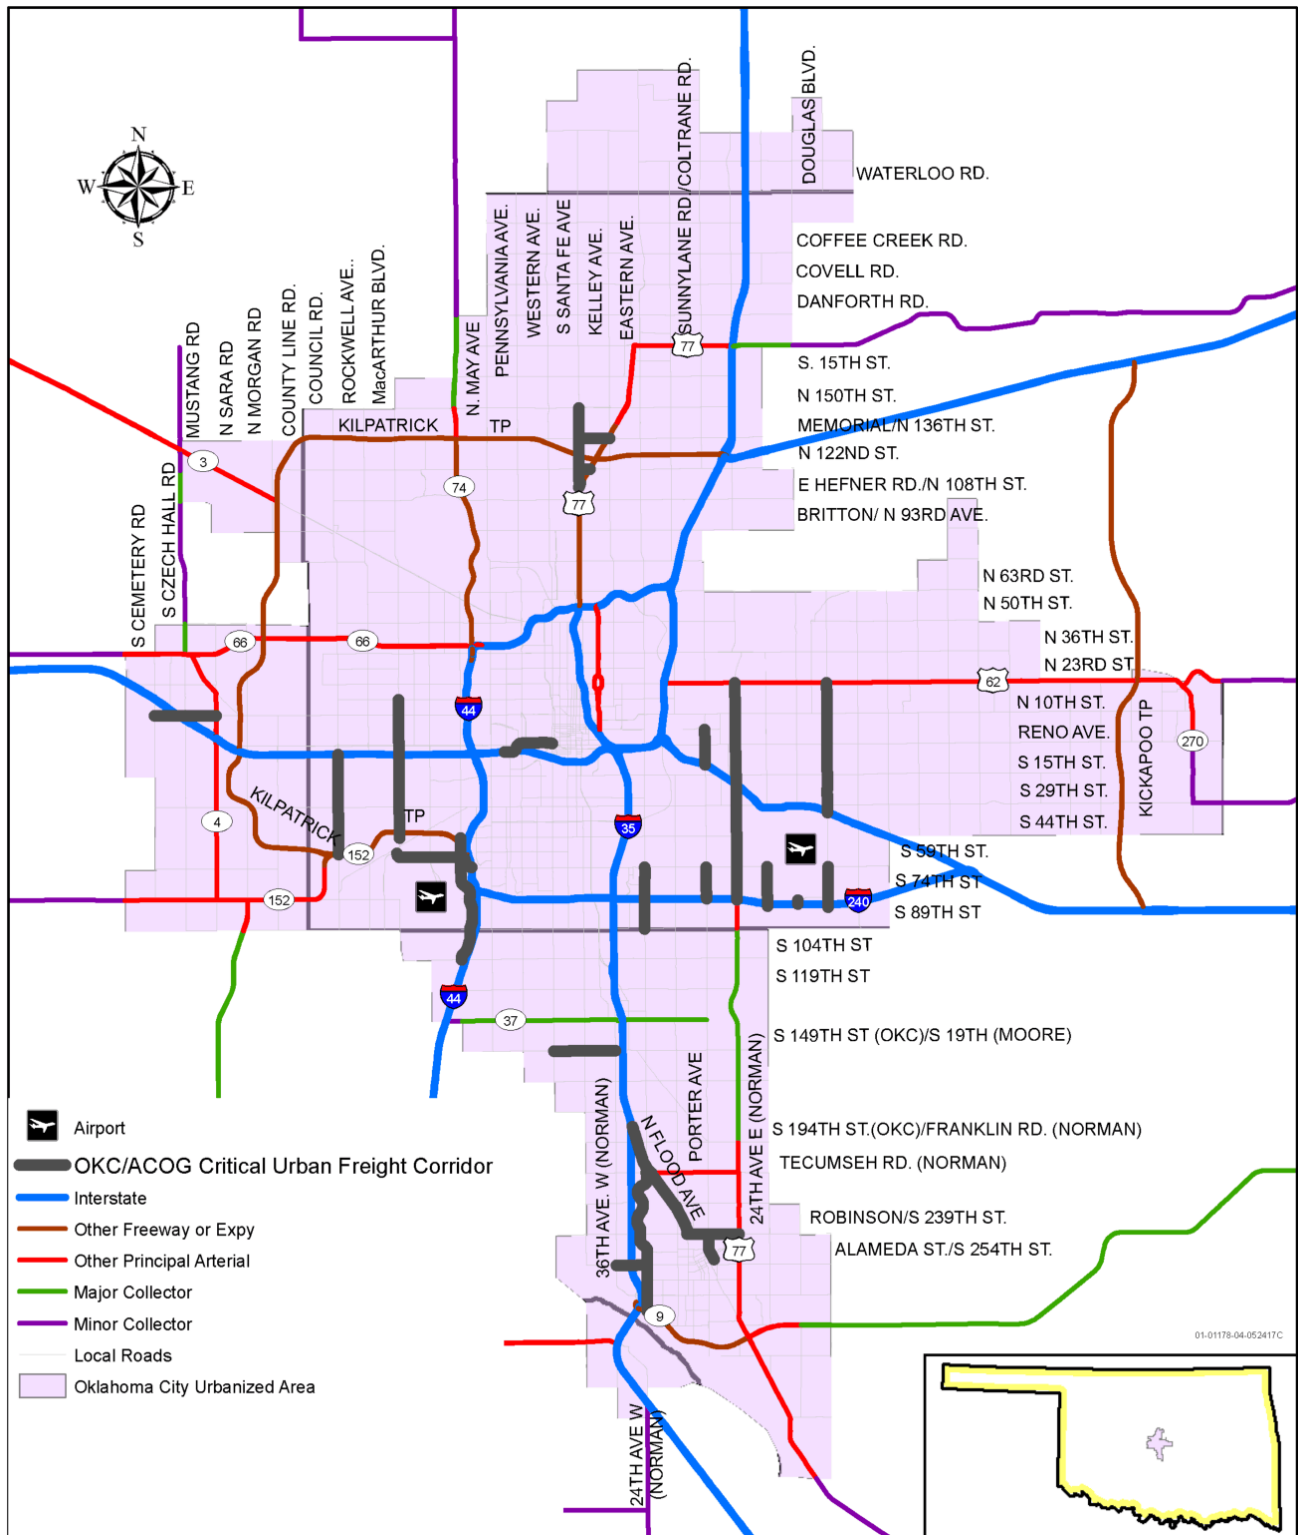

1. Refinement of existing corridor segments
2. Addition of new corridor segments
3. Removal of existing corridor segments

**Please submit any suggested changes of the CUFC to Jennifer Sebesta at [jsebesta@acogok.org](mailto:jsebesta@acogok.org) by Friday, May 29, 2026.** Any proposed modifications will be brought to committees in June for approval.
