REGULAR AGENDA ITEMS THAT MAY REQUIRE ACOG MPO TECHNICAL COMMITTEE ACTION

ATTACHMENT 3-A

SUBJECT:

AMENDMENT TO THE FFY 2026-2029 TRANSPORTATION IMPROVEMENT PROGRAM

DATE:

NOVEMBER 12, 2026

FROM:

JENNIFER SEBESTA
Transportation Planning Services (TPS) Senior Division Manager

INFORMATION:

The following amendment has been proposed for the FFY 2026-2029 Transportation Improvement Program (TIP):

ACOG is requesting to amend the FFY 2027 Local Government Element of the FFY 2026-2029 TIP to add the projects listed in Table 1. The projects need to be included in the current TIP prior to their proposed January 2027 let date. The projects remain capped at the original award amount.

This amendment ensures consistency among the TIP, Statewide Transportation Improvement Program (STIP), and the grant awards. Upon approval of the ACOG MPO Policy Committee, the requests will be forwarded to the Oklahoma Department of Transportation (ODOT) and then to the Federal Highway Administration (FHWA)/Federal Transit Administration (FTA) for final approval.

CONSIDERATION OF THE ENCOMPASS 2050 METROPOLITAN TRANSPORTATION PLAN

DATE:

NOVEMBER 12, 2026

FROM:

JENNIFER SEBESTA
Transportation Planning Services (TPS) Senior Division Manager

INFORMATION:

Encompass 2050 – also known as the Metropolitan Transportation Plan (MTP) for Central Oklahoma – is the proposed long-range transportation plan for the region and provides a guide for investing more than $30 billion in its multimodal transportation system between 2020 and 2050.

Encompass 2050 Plan was developed over the past five years in coordination with member communities, the Central Oklahoma Transportation and Parking Authority (COTPA), Norman Transit, the Oklahoma Department of Transportation (ODOT), the Oklahoma Turnpike Authority (OTA), Federal Highway Administration (FHWA), Federal Transit Administration (FTA), and numerous other stakeholders.

The MTP sets priorities for Central Oklahoma's transportation system and includes both policy recommendations and specific projects that will guide expenditure of the region's limited transportation dollars. In addition, Encompass 2050:

- Provides updated regional transportation planning goals and objectives
- Establishes population and employment projections through 2050
- Analyzes the existing transportation system, future networks, and land use scenarios
- Identifies current and future multimodal transportation needs
- Offers a financial strategy to ensure that the adopted plan is affordable
- Addresses the national requirement for performance-based planning

The proposed Plan was released on encompass2050.com and speakupcentralok.org for public review and written comments, which began on Friday, October 16, and will end on Monday, November 16, 2026. An overview of the proposed Encompass 2050 Plan was presented to the ACOG MPO Policy Committee for their review at their meeting held on October 29, 2026. The plan was also shared with stakeholders and the public through various social media channels.

The ACOG MPO Policy Committee will consider approval of Encompass 2050 at its November 19, 2026, meeting. Written comments received during the public review process will be summarized and addressed prior to the November ACOG MPO Policy Committee meeting.

ACTION REQUESTED:

Consider recommending that the ACOG MPO Policy Committee approve the proposed financially constrained Encompass 2050 Metropolitan Transportation Plan.

2026 OZONE SEASON UPDATE

DATE:

NOVEMBER 12, 2026

FROM:

ERIC POLLARD
Air Quality & Clean Cities Manager

INFORMATION:

During the 2026 ozone season (April through November) there were seven (7) Ozone Alert Days and seventeen (17) instances of OKC-area monitors exceeding the Environmental Protection Agency (EPA) ozone 8-hour standard of 70 ppb. The number of exceedances is less than the fourteen (14) instances in 2025. However, the 2026 regional design value for Central Oklahoma is 79 ppb – a violation of the ozone standard.

EPA's ozone pollution standard uses a three-year average to determine compliance, and the current standard is set at 70 ppb. At the unofficial end of the 2025 ozone season, our three-year average is 71 ppb for (2023-2025) and 73 ppb (2024-2026). This means that if EPA were to designate the Oklahoma City Metropolitan Statistical Area (MSA's) ozone attainment today, the OKC-MSA would be out of attainment of the ozone standard.

The ACOG Cost of Nonattainment Study for the Oklahoma City Area has estimated $9.6 - $15.2 billion in negative economic impact to the region if designated as nonattainment.

ACOG is proactively implementing the recently adopted Regional Air Quality Plan in coordination with our stakeholders to improve air quality and keep the region in attainment of air quality standards.

Strategic areas of focus in the plan include:

- Transportation Emissions
- Industrial & Commercial Emissions
- Public Awareness & Community Engagement
- Local Government Tools & Policy Support

Key Regional Air Quality Plan (RAQP) Goals include:

- Reducing NO_x and VOC emissions from on-road vehicles by 15 percent
- Engaging 50–75 percent of local governments in clean air ordinances or fleet transitions
- Reaching 250,000 residents annually through Clean Air outreach
- Decreasing industrial and commercial emissions by 10 percent
- Converting 10 percent of municipal fleets to electric or hybrid
